

MOHAR SINGH YADAV

Frontend Developer — MERN Stack — AI/ML

+91-9336157770 | mohar933singh@gmail.com | [LinkedIn](#) | [GitHub](#)

Professional Summary

Frontend Developer and B.Tech student in Artificial Intelligence and Machine Learning with experience in developing responsive web applications using React.js, Next.js, JavaScript, TypeScript and Tailwind CSS. Proficient in RESTful API integration, MERN stack development and building user-centric interfaces.

Projects

IntervAI – AI-Powered Mock Interview Platform

[GitHub](#) | [Live Demo](#)

- Developed a responsive AI-powered mock interview platform using React.js and the MERN stack for an interactive user experience.
- Built reusable UI components and integrated RESTful APIs for interview management and user profiles.
- Implemented secure user authentication and authorization using Firebase Authentication and JWT.
- Designed interactive dashboards to visualize interview history, performance analytics and user progress.
- Optimized the frontend for responsiveness, accessibility and seamless cross-device compatibility.

WanderLust – Full Stack Travel Listing Platform

[GitHub](#) | [Live Demo](#)

- Developed a responsive travel listing platform using React.js and modern frontend technologies.
- Built interactive user interfaces for creating, updating and managing travel listings.
- Integrated RESTful APIs to enable seamless communication between the frontend and backend.
- Implemented secure user authentication and dynamic content rendering for an enhanced user experience.
- Designed mobile-friendly and accessible interfaces using Tailwind CSS to ensure cross-device compatibility.

Certifications & Achievements

Achievements

- Secured 2nd Rank in University Examinations.
- Received Certificate of Excellence 2025.
- Active member of Google Developer Groups (GDG) On Campus.
- Participated in Hack2Skill Solution Challenge.
- Regular participant in technical workshops and hackathons.

Certifications

- Deloitte Technology Job Simulation (Forage) [View](#)
- Google Cloud Study Jams (GDG On Campus) [View](#)
- Web Application Building Using Python (Softpro India & AKTU) [View](#)
- GDG on Campus Solution Challenge (Hack2Skill) [View](#)
- Google Developer Group Gen AI Study Jam [View](#)
- Alpha Plus Batch (DSA with Java) [View](#)

Technical Skills

Languages: Java, JavaScript, TypeScript, Python, SQL

Backend Technologies: Node.js, Express.js, RESTful APIs, JWT, Authentication, Authorization, API Integration

Frontend Technologies: React.js, HTML, CSS, Tailwind CSS

Databases: MongoDB, MySQL, CRUD Operations, Database Design

Cloud: Firebase, Google Cloud Platform, AWS Basics

Developer Tools: Git, GitHub, Postman, VS Code

Core Concepts: DSA, OOP, MVC Architecture, System Design, Agile Methodology, Problem Solving

Spoken Languages: Hindi (Native), English (Professional), German (Basic Proficiency)

Gen AI: LLM, RAG, vector DB, embedding learning and practicing

Education

B.Tech in Artificial Intelligence & Machine Learning

S R Group of Institutions, Jhansi

2023 – 2027

Senior Secondary (12th): **82.4%**

Secondary (10th): **76.83%**

Extracurricular Activities

- Enthusiastic about Generative AI, leveraging AI tools for image generation, video creation, and content development.
- Regularly explore advancements in Artificial Intelligence, Machine Learning, and automation technologies.
- Build and experiment with AI-driven workflows to enhance productivity and solve real-world problems.
- Participate in technical communities, workshops, and self-learning initiatives focused on emerging technologies.
